SHIPPED SEMEN CONTRACT 2025

This Shipped Semen Breeding Contract for the **2025** Breeding Season is made and entered into this _____ day of _____ by and between **Pilot Knob Stud (PKS)**, hereinafter referred to as **Breeder**, and _____ hereinafter referred to as **Mare Owner**. Mare Owner agrees to have a knowledgeable party inseminate the **Mare** _____ Registration#(s) _____ Breed Association(s) _____ with shipped cooled semen from the Stallion **TIK TOCK AQHA #6051829** hereinafter referred to as **Stallion**, for the following Service Fee(s):

Shipped Semen Service Fee for Stallion: \$
Shipping Charge(s): \$ **325** *UPS next Day Air / \$ **350** *FedEx Priority O'Night / \$ **425** airline counter to counter (when available)

PKS Shipment Charge Protection Option: \$ **23** ☐ **Please check for option of credit or refund by PKS for the shipping charge only if the *shipment is not delivered by 7pm by your carrier of choice ~ UPS / FedEx**

Total cost: \$ _____ (due before first shipment of semen will be sent)

- It is understood that Breeder may limit the number of shipped semen doses for any breeding date period. Priority for shipped semen will be based upon date full payment was received. Breeder cannot guarantee semen on any date Mare Owner may need it. Mares stabled with Breeder at farm will be given breeding priority over shipped semen mares.
- Additional shipping expenses will be at Mare Owner's expense. This includes **ALL** shipping charges. The charge for UPS Next Day Air delivery is **\$325**. If FedEx is preferred as the shipment courier by Mare Owner or Agent, the Priority O'Night shipment charge is **\$350**. Airline counter to counter shipments are **\$425 when available**.
All shipping charges and Service Fee MUST be paid IN FULL before Breeder will ship semen to Mare Owner/Agent(s). THERE WILL BE NO EXCEPTIONS!
- Each cooled semen shipment will be guaranteed by PKS to contain enough live sperm cells to inseminate only one mare. Any attempt to breed more than one mare with a single shipment will void this contract. One dose of semen will be shipped to Mare Owner unless Breeder has an excess number of doses that breeding day. **Extra doses may be sent but are not guaranteed.** Mare Owner should not assume that if more than one dose is sent on a particular day, that the following shipment will also contain an extra dose.
- Collection days are Monday, Wednesday, Friday beginning Monday, February 3rd, 2025, through May 15th, 2025.**
There will be no additional collection days.
 - Ordering and confirming the availability of shipped semen is the responsibility of the Mare Owner & or Agent.
 - Advance notice of general shipping date is required to guarantee the availability of semen.
 - Once the anticipated shipment date has been established, a confirmed semen order for overnight shipping **must be made before 9AM EST** of collection day. For airline shipping, **the request must be made** the evening before collection, or the morning of collection **before 7AM EST!** PKS cannot guarantee semen availability for late calls and will be subject to a **\$50** late call courier charge.
 - Requests for shipments **WILL NOT** be accepted through any social media website under any circumstances! Shipment requests must be placed by phone call or text to Mike Hay or by email to the above address. We will confirm your request - do not assume that your shipment request has been received without confirmation from PKS!
 - PKS's preference is to ship semen overnight via FedEx or UPS (Mare Owner may choose preferred carrier) Mare Owner will be responsible for any additional expense associated with preference of using one carrier over another. **PKS is not responsible for shipments once they leave our care and custody.**
- The Stallion Owner (Scott Frye) offers a Live Foal Guarantee (LFG) from the breeding purchased with this contract. A Live Foal is defined by PKS as a foal that stands on its own & nurses within 24 hours of birth. Should Mare not produce a Live Foal, the LFG will ensure Mare Owner a return breeding for the **following season (2026) only**. A chute fee or re-breed fee may apply.
- A Breeder's Certificate will be issued to the Mare Owner when the Mare has produced a Live Foal & the Service Fee, and all expenses incurred have been received in full by PKS. It is the responsibility of the Mare Owner to notify PKS of such.
- It is further agreed that should the Stallion die or become unfit to breed prior to settling the Mare, that **1/2** of the Service Fee will be refunded by the Stallion Owner (Scott Frye) if Service Fee has been paid in full thereby cancelling this entire contract or may use frozen semen to honor the breeding / re-breed. If the Mare dies or becomes unfit to breed before settling, the Breeder has the option to either a) accept another Mare as replacement or b) cancel this contract.
- All parties agree that the Breeder, their agents, or employees are not liable for death, sickness and/or accident to Mare resulting from this breeding.
- All parties agree to follow their Breed Association Rules and Regulations regarding the shipment of cooled and transported semen.
- This contract is non-assignable and non-transferable without the express written consent of the Breeder.
- Should either party breach this contract, the breaching party shall pay the other's court costs and attorney's fees related to such breach.
- This contract is entered into and will be interpreted under the laws of the State of Florida, county of Marion, and will be enforced under the laws of such. If any clause is against Florida State Law, that clause shall be null and void. The balance of the contract will remain in force.
- Mare owner/Agent agrees to notify PKS if this is an embryo transfer (ET)/ICSI breeding.**
In the event of multiple embryos obtained from a single flush, the Mare Owner is obligated to inform PKS the existence of such within **10 days** of the procedure. Mare Owner agrees to notify PKS once the additional recipient mare(s) is confirmed in foal with a **30-day** heartbeat and is responsible for additional Service Fee(s) at that time. Should the Mare produce multiple foals naturally, Mare Owner is responsible for additional Service Fee(s) when foal(s) are considered Live Foals under the terms of the LFG.
- Vitrified (Frozen) Embryos:** Mare Owner agrees to notify PKS that an embryo(s) was vitrified within **48 hours** of recovery.
Frozen Embryos that are held in storage past a 2-year period from the initial recovery date will be subject to that current year's Stallion Service Fee at the time of use & insemination, **or** the difference in dollar amount of the paid original fee. Frozen Embryos are non-transferable unless **all** Fee(s) & or outstanding expenses have been received in full by PKS.
